

LAURA CECILIA PIÑEROS

(+57) 310 755 45 70 | laumath140@gmail.com | [LinkedIn](#)

Data Scientist | M.Sc. in Big Data | Mathematician with experience in Data Analytics, Machine Learning, Marketing Analytics, and Business Intelligence. Proficient in Python, SQL, Power BI, Snowflake, AWS, SAP, and Microsoft Office.

Specialized in developing predictive models (SARIMAX, VAR, and Meridian Marketing Mix Modeling), ROI analysis, customer segmentation, forecasting, and data visualization.

Experienced in digital funnel analysis for streaming platforms, Cross-Media Analytics (TV, Streaming, YouTube, Web Portals, and Radio), executive dashboard development, audience scoring, experimentation, and advertising investment forecasting using macroeconomic variables.

Passionate about leveraging data to drive strategic business decisions, automating reporting processes, and leading cross-functional remote teams across Latin America.

PROFESSIONAL EXPERIENCE

Data Scientist / Data Analyst
Caracol TV | Colombia (Hybrid)

February 2026 - July 2026

- Conducted digital funnel analysis for the DITU streaming platform to evaluate user behavior, content consumption, and optimization opportunities.
- Centralized Cross-Media audience KPIs across TV, DITU, YouTube, digital portals, and radio to support integrated audience analysis and strategic decision-making.
- Developed dynamic consumption and experimentation reports with program exclusion rules to optimize content scheduling, programming, and digital strategy.
- Designed audience scoring models to classify users based on consumption behavior, improving campaign targeting and audience segmentation.
- Built predictive forecasting models for advertising investment using macroeconomic variables such as the Consumer Confidence Index (CCI), Consumer Price Index (CPI), and Gross Domestic Product (GDP).
- Worked within AWS cloud infrastructure to support analytical workflows, data modeling, information processing, and the generation of business insights.
- Collaborated with business, content, and data teams by delivering statistical analyses, data visualizations, and actionable insights to support data-driven decision-making.

Technologies & Tools: Power BI, Python, SQL, Snowflake, AWS, Cursor, Claude.

Data Scientist & Innovation
D2B | Chile (Remote-TZ: Chile Standard Time (CLT))

March 2025 - November 2025

- Generated strategic insights to optimize marketing investment and improve the performance of digital media campaigns.
- Implemented Meridian Marketing Mix Modeling (MMM) models to evaluate channel contribution, ROI, and the impact of marketing activities.
- Developed statistical attribution and forecasting models (VAR and SARIMAX) to predict digital traffic trends and user behavior across leads, impressions, and keywords.
- Built digital analytics reports in Google Colab by integrating data from Google Analytics 4 (GA4), Google Sheets, and BigQuery.
- Monitored key digital marketing KPIs, including Cost per Lead (CPL), Click-Through Rate (CTR), leads, and reach, while creating interactive dashboards in Looker Studio.
- Applied working knowledge of Meta Ads, Google Ads, TikTok Ads, and Google Search Console to support campaign performance analysis and optimization.

Technologies & Tools: Google Analytics 4 (GA4), BigQuery, SQL, Google Sheets, Google Colab, Looker Studio, Google Search Console, Meta Ads, Google Ads, TikTok Ads, Python, and Meridian Marketing Mix Modeling (MMM).

Data Scientist

NAE Colombia | Bogotá, Colombia (On-site)

February 2023 - February 2025

- Performed financial analysis and customer profiling for banking institutions in partnership with Claro Colombia.
- Developed and deployed analytical, econometric, and automation models using Python and R to support business decision-making.
- Worked in Microsoft Azure cloud environments, including Azure Databricks and Azure DevOps, for data engineering, analytics, and model deployment.
- Designed and maintained ETL pipelines using Python and Pentaho Data Integration (Spoon).
- Wrote advanced SQL queries to support and execute SMS, WhatsApp, and email marketing campaigns.
- Applied strong analytical thinking to evaluate data, identify business opportunities, and support data-driven decisions.
- Proactively identified process improvement opportunities to enhance operational efficiency.
- Supported change management initiatives by facilitating the adoption of new tools, technologies, and analytical methodologies across the organization.

Technologies & Tools: SQL, Python, R, Azure Databricks, Azure DevOps, and Pentaho Data Integration (Spoon ETL).

EDUCATION

- **Complutense University of Madrid**
Master's Degree in Big Data & Data Science
2022

Master's Thesis: Load Curve Forecasting for Customer Segmentation in Photovoltaic Power Plants.

- **Francisco José de Caldas District University**
Bachelor's Degree in Mathematics
2021

Undergraduate Thesis: On the Focal Set in Affine Differential Geometry.

CERTIFICATIONS

- Cloud Digital Leader Certification — Spanish
 - Credential: Google Cloud Leader
 - Google Analytics Certification
 - Credential: GA4 Certification
-

TECHNICAL SKILLS

Core:

- Python
 - RStudio
 - SQL
-

Core Skills – Digital Analytics & Marketing Analytics

- Digital Analytics & Marketing Analytics
 - Google Analytics 4 (GA4)
 - BigQuery
 - Google Search Console
 - Google Sheets
 - Meta Ads
 - Google Ads
 - TikTok Ads
 - Funnel Analysis
 - Growth Analytics
 - Performance Marketing
 - ROI Analysis
 - Cost per Lead (CPL)
 - Click-Through Rate (CTR)
 - Lead Generation
 - Reach
 - Conversion Optimization
 - Conversion Rate Optimization (CRO)
 - Cross-Channel Analytics
 - Cross-Media Analytics
 - Marketing Mix Modeling (MMM)
 - Meridian Marketing Mix Modeling (Meridian MMM)
 - Marketing Attribution Modeling
 - Campaign Optimization
 - Audience Segmentation
 - Marketing Performance Measurement
-

Professional Competencies

- Analytical Thinking
 - Data-Driven Decision Making
 - Actionable Insights Generation
 - ROI Optimization
 - Proactive Problem Solving
 - Change Management
 - Cross-Functional Collaboration (Marketing, Product, Data & Business Teams)
 - Remote Collaboration with LATAM Teams
 - Strategic Analysis
-

Languages

- Spanish: Native
- English: Intermediate (B1–B2) – Professional working proficiency in technical reading, documentation, and reporting.
